Dear Mr. Lam:

RE: Phalanx

This is in reference to your letter dated June 4, 2014, addressed to the Canadian Food Inspection Agency (CFIA), which was forwarded to our Bureau on June 20, 2014, seeking our comments on the acceptability of the subject product for use as a cleaner in Federally Registered Food Establishments. The CFIA requested our Bureau to assess the safety of this product based on its chemical composition and the proposed use.

Based on the information submitted, we can advise that we see no reason to object to the composition and use of the subject cleaner in food processing establishments, provided that:

- a) there will be no contamination of food as a result of its use and storage; and
- b) equipment or surfaces subject to direct contact with food are thoroughly **rinsed with potable water** after treatment with the product.

The submitted label is deemed acceptable for its use in food processing establishments.

It should be noted that the Canadian Food Inspection Agency (CFIA) will be advised of our comments by copy of this letter.

We trust that the foregoing will be of use to you.

Yours truly,

Elena Emelianova, Ph.D.
Scientific Evaluator
Food Packaging Materials and Incidental Additives Section
Chemical Health Hazard Assessment Division
