

# HS PLUS

## ALCOHOL HAND AND HARD SURFACE SANITIZER

**DESCRIPTION:** HS PLUS is an alcohol based hand and hard surface sanitizer containing a four-chain, fifth generation quaternary ammonium compound. This product has been formulated to reduce the risk of cross contamination by providing the reduction of a wide spectrum of bacteria and microorganisms. It is excellent for use in food plants and other facilities where sanitation is a high priority. HS PLUS is designed for spray or mist sanitizing hard, non-porous surfaces. It can also be used on bare or gloved hands. It is available as a no-rinse solution, spray or as pre-soaked wipes for ease of use.

### DIRECTIONS FOR USE:

**A. Food Contact Hard Surface Sanitizing:** Thoroughly clean and rinse hard and non-porous surfaces with potable water. After water rinse has been completely drained from clean surfaces, HS PLUS should be applied undiluted with a specialized mechanical sprayer (Biomist™ Power Sanitizing System) which safely and effectively atomizes alcohols onto hard surfaces. Excellent for reaching crevices or areas which are difficult to reach by wiping. No rinse is required. HS PLUS will provide 160 ppm active quat when applied undiluted.

**B. Hands and Gloves:** HS PLUS is designed for use on bare or gloved hands. Wash hands with soap and rinse with potable water prior to applying HS PLUS. Remove any excess product from hands or gloves to minimize transfer of sanitizer to food products.

**C. Spot Sanitizing During Production:** Spray HS PLUS onto contaminated surface, wipe clean with paper towel and spray again with HS PLUS. DISCARD PAPER TOWEL.

**D. Mid-Shift Clean-Up:** At start of mid-shift clean-up, spray HS PLUS onto to surface/equipment to aid in microbe/bacterial control. Heavily soiled areas can be wiped with paper towel and then re-sprayed with HS PLUS.

**CONTAINS:** Ethyl Alcohol and Quaternary Ammonium Chloride

UN1993

FLAMMABLE LIQUID, N.O.S. (ISOPROPYL ALCOHOL, ETHYL ALCOHOL)  
CLASS 3, PG II

Batch #

Net Content: 20 Liters

### Danger

Highly flammable liquid and vapour. Causes serious eye irritation. May cause respiratory irritation. May cause drowsiness or dizziness.

### PRECAUTION:

Keep away from heat/sparks/open flames/hot surfaces. – No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Take precautionary measures against static discharge. Avoid breathing vapours, mist, spray. Store locked up in a cool, well-ventilated place away from possible contaminants. Keep containers closed when not in use. Dispose of contents and container in accordance with local, regional, national and international regulations.

### FIRST AID:

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Get immediate medical advice/attention. If skin irritation or rash occurs: Get medical advice/attention. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Get medical advice/attention if you feel unwell. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention.

### Danger

Liquide et vapeurs très inflammables. Provoque une sévère irritation des yeux. Peut irriter les voies respiratoires. Peut provoquer somnolence ou vertiges.

### PRÉCAUTIONS :

Tenir à l'écart de la chaleur/des étincelles/des flammes nues/des surfaces chaudes. – Ne pas fumer. Maintenir le récipient fermé de manière étanche. Mise à la terre/liaison équipotentielle du récipient et du matériel de réception. Prendre des mesures de précaution contre les décharges électrostatiques. Éviter de respirer vapeurs, brouillards, aérosols. Entrez sous clé dans un endroit frais et bien ventilé, loin des contaminants possibles. Garder les contenants fermés lorsqu'ils ne sont pas utilisés. Éliminer le contenu et le récipient conformément à la réglementation locale, régionale, nationale et internationale.

### PREMIERS SOINS :

EN CAS D'INGESTION: Rincer la bouche. NE PAS faire vomir. Consulter immédiatement un médecin. En cas d'irritation ou d'éruption cutanée: Consulter un médecin. EN CAS D'INHALATION: Transporter la personne à l'extérieur et la maintenir dans une position où elle peut confortablement respirer. Consulter un médecin en cas de malaise. EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Consulter un médecin.
