

BIO-ACTIVE TREATMENT FOR DRAINS AND DRAIN LINES

- Formulated for the treatment of drains and drain lines in restaurants and commercial establishments
- Prevents accumulation and clogging

	ES200
APPEARANCE	Slightly hazy blue liquid
ODOR	Fruity
SOLUBILITY	Dispersible
RELATIVE DENSITY	~1.003
pH-VALUE	6.0-8.5
VISCOSITY	N/A
SHELF LIFE	2 Years

SIZES	
ES200-6	946 mL (1 US Quart)
ES200-4	3.78 L (1 U.S. gallon)

For Food Plant and other industrial and commercial use

DISPOSAL

Dispose of used/unwanted product according to state and local regulations. Offer container for recycling.

PERSONAL PROTECTION

Please refer to product label and SDS.

BENEFITS

Formulated for the treatment of drains and down lines in restaurants and commercial establishments. Its tensioactive agents assure optimal performance even in tough conditions. Prevents accumulation and clogging. Contains combined aerobic and anaerobic microorganisms capable of biodegrading oil, grease and a variety of organic materials.

- Is a highly concentrated, heavy duty drain cleaner and maintenance product for high volume quick service restaurants, bars, and institutional and industrial drain lines
- Common applications include treating bar drains, wet wells, floor drains, food processing plant waste water, hospital drain lines, and odors in the drain lines of commercial high rise complexes and large apartment buildings
- Has a chemical component in its formulation that helps to quickly eliminate foul odors caused by bacteria in the drain lines that generates sulfur compounds
- Displaces unknown, potentially “pathogenic” (disease causing) bacteria with known, healthy microorganisms and in this way contributes to better human health

DIRECTIONS

Initial Treatment:

Pour 250 mL (10 oz) of product in sink or pipeline once daily for 3 consecutive days. For maximum efficiency, let stand without use of water in the line for 6 hours or more, and then let water circulate in the pipeline.

Weekly Preventative Treatment:

Pour 250 mL (10oz) of product, and where possible, let stand for 6 hours or more before use of water in the line.

STORAGE & TRANSPORTATION

Store in a cool, well ventilated area: do not freeze; or expose for a long period of time to direct sunlight or strong incandescent light. Colors may change slightly overtime due to the food, drug and cosmetic dyes that are used in this product. This product may not be effective in the presence of chemical sanitizers such as formaldehyde or chlorine bleach.
