

BIO-CLEANING & DEODORIZING URINAL BLOCKS

- Unique formula that cleans, de-scales and eliminates odors
- Gradually disperses bacteria culture
- Effective for approximately 2000 flushes

	ES230
APPEARANCE	Dark blue solid
ODOR	Lemon
SOLUBILITY	Miscible in water at 20°C
RELATIVE DENSITY	N/A
pH-VALUE	N/A
SHELF LIFE	1 Year From Date of Manufacture

SIZES	
ES230-12	12 blocks with screens
ES230-22	22 blocks

DIRECTIONS

- Place a block in urinal
- Effective for approximately 2,000 flushes

BENEFITS

Dissolves completely in water
 Combination of protease enzymes, beneficial micro-organisms, and a blend of surfactants for superior effectiveness. Urine and excessive flushing deposits calcium, salt and silica as scale. Bacteria and scale continue to build up until they form virtually insoluble lumps of uric scale, which is the chief source of offensive odors in urinals. Uric scale also creates unsightly stains and can grow large enough to block pipes. By using ES230, microbes attach to uric scale deposits converting them to more soluble compounds.

STORAGE & TRANSPORTATION

- Store in a cool, well ventilated area
- Do not freeze; or expose for a long period of time to direct sunlight or strong incandescent lights
- Colors may change slightly overtime due to the food, drug and cosmetic dyes that are used in this product

DISPOSAL

Dispose of used/unwanted product according to state and local regulations. Offer container for recycling.

PERSONAL PROTECTION

Please refer to product label and SDS.
