

TECHNICAL DATA SHEET

LIQUID MACHINE DISHWASH PROD # 3050

Description:

LIQUID MACHINE DISHWASH is a chlorinated dishwashing detergent for automatic dispensing and control. The excellent wetting and penetrating qualities ensures that even the greasiest dishes, utensils and glasses become thoroughly washed and rinsed. Diluted LIQUID MACHINE DISHWASH can also be used to soak heavily encrusted pots and pans for easier cleaning.

Directions:

Fill the detergent chamber with LIQUID MACHINE DISHWASH and run dishwasher as usual. For encrusted dishes, fill dish or pan with water and add 2 tablespoons of LIQUID MACHINE DISHWASH. Let stand for 10 minutes. Wipe away particles and rinse.

Shipping:

Available in 4x4L, 20L, 210L
