## ALLOORGANIC® FOAMING HAND SOAP

### PRODUCT INFORMATION SHEET

#### Description

Proven safer for human health and the environment!

The same USDA Certified Organic Foaming Hand Soap offered in our proprietary dispensing system is now available in our new convenient sized bottles for areas where soap dispensers are not required. The USDA Certified Biobased product is a rich and creamy, easy rinse formula. Blended with rich emollients to replenish skin oils, it is fragrance-free/dye-free and does not contain phosphates or GMO's.

- Hypoallergenic
- Non irritant
- Tested under the control of a dermatologist

#### Uses

Use in shower areas, service centers, athletic facilities, health clubs, nursing homes, medical centers, offices, food plants, schools, hotels and restaurants.

#### Directions

Twist pump open. May be pump applied to wet or dry hands. Wash hands for at least 20 seconds, rubbing hands together. Rinse hands under warm running water, using rubbing motion. Wipe and dry your hands with a clean towel or a paper towel. Frequent hand washing is recommended.

#### Personal Protection

Please refer to product label and SDS
