

ServClean®

LIQUID SILVER SOAK

PRODUCT INFORMATION SHEET

DESCRIPTION:

ServClean® Liquid Silver Soak is a premium, concentrated liquid designed to pre-soak silverware and stainless steel utensils. This product is free of phosphates and nitrilotriacetic acid (NTA).

PRODUCT USE:

- Formulated with enzymes fortified to soften and loosen dried on foods from kitchenware
- Removes tough soils from silverware, aluminum, other soft metals, cups and dishes prior to mechanical washing
- This product is well formulated for all water temperatures

DILUTION: This product is well formulated for all water temperatures.

Application	Concentration/ml/L
Stainless Steel	9-15
Cutlery & Silverware	9-15
Aluminum Pans	12-38 (depending on soiling)

DIRECTIONS FOR USE:

1. Presoak utensils for 10-20 minutes in warm water
2. Longer soak times may be necessary for heavier soils
3. Do not soak overnight
4. Rinse with potable water to remove residue on all materials that may contact meat and food products
